Evidence Quality and Evaluation Capacity Standards	Applicant Self-Assessment	Key Words to Understand	Relevant Evaluation Resources, CNCS Resources	Relevant Core Curriculum Classes
The applicant's evidence is of satisfactory quality. Applicants with no evidence describe an evidence-informed theory of change.	My program's evidence is fully described, succinct, and coherent. All information described in pts. 1-7 on pg. 16 of the NOFO is included in my description.	 Evidence No evidence Evidence-informed Theory of change 	 2018 ASN NOFO Logic models activities and templates on Evaluation Resources page 	 Laying the Groundwork How to Develop a Logic Model
The applicant's data collection systems are sufficient to yield high quality process and outcome data.	My program's processes, procedures, and resources used to collect, store, assess, and monitor data are clearly described. Where appropriate, concrete examples are provided to demonstrate these processes, procedures, and resources.	 Data collection systems High quality data Process data Outcome data 	 2018 ASN NOFO Building Effective Data Collection Plans Webinar 	Laying the Groundwork
The applicant demonstrates adequate capacity to use process and outcome data including performance measurement (and evaluation data, if applicable), to inform continuous learning and program improvement.	My program's ability to use data to identify areas for organizational or program improvement are clearly and completely described. The description includes examples or supporting evidence of concrete steps taken to create a goal, enact a programmatic or organizational change, implement a new process or procedure, or formulate a plan to do one of those things.	 Process data Outcome data Performance measurement data Evaluation data Continuous learning and program improvement 	2018 ASN NOFO Building Effective Data Collection Plans Webinar	Reporting and Using Evaluation Results

The applicant's long-term research agenda is aligned to the organization's learning needs and position on the evidence continuum (evidence tier).	description of my program's research goals, research gaps, future research plans. This description aligns to my program's location on the evidence continuum and my program's evidence tier selfassessment.
