- **STEM Programs**: Science, Technology, Engineering and Math (STEM) Programs focus on increasing students’ proficiency in the fields of Science, Technology, Engineering and Math. For more information, visit [http://www.ed.gov/stem](http://www.ed.gov/stem).

- **Legal Aid or Elder Justice Initiatives**: Legal Aid initiatives support low-income people seeking civil legal assistance through the Legal Services Corporation. - **Evidence-Based Programs**: The term evidence-based program refers to a set of activities and practices supported by a theory of change tested through rigorous impact evaluation. These impact evaluations have demonstrated a causal relationship between specified program activities and outcomes. Causal evidence is typically generated through one or more quasi-experimental or experimental field tests. Good evidence-based program models provide an opportunity to reproduce positive outcomes when replicated consistently. Projects do not need to receive augmentation funding from AmeriCorps in order to report activity in support of evidence-based programs. For more information, visit [https://www.whitehouse.gov/omb/evidence](https://www.whitehouse.gov/omb/evidence).

- **Prescription Drug/ Opioid Abuse Prevention Initiatives**: Prescription drug and Opioid Abuse Prevention initiatives increase access to care and participation in health education activities designed to prevent or reduce prescription drug and opioid abuse.
