SUPPLEMENTARY INFORMATION:

Title: Reparations Complaint, CFTC Form 30 (OMB Control No. 3038–0115). This is a request for extension of a currently approved information collection.

Abstract: Pursuant to section 14 of the Commodity Exchange Act, members of the public may apply to the Commission to seek damages against Commission registrants for alleged violations of the Act and/or Commission regulations. The legislative intent of the Reparations program was to provide a low-cost, speedy, and effective forum for the resolution of customer complaints and to sanction individuals and firms found to have violated the Act and/or any regulations.

In 1984, the Commission promulgated part 12 of the Commission regulations to administer section 14. Rule 12.13 provides the standards and procedures for filing a Reparations complaint. Specifically, paragraph (b) describes the form and content requirements of a complaint. CFTC Form 30 mirrors the requirements set forth in paragraph (b).

The Commission began utilizing Form 30 in or about 1984. The form was created to assist customers, who are typically *pro se* and non-lawyers. It was also designed as a way to provide proper notice to respondents of the charges against them. This form is critical to fulfilling this policy goal.¹

¹ The Commission plans to update its rules to include a web-based version of Form 30 as an

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.² On May 1, 2024, the Commission published in the **Federal Register** notice of the proposed extension of an approved collection of information and provided 60 days for public comment on the proposed extension, 89 FR 35078 ("60-Day Notice") The Commission did not receive any relevant comments on the 60-Day Notice.

Burden Statement: The respondent burden for this collection is estimated to be as follows:

Respondents/Affected Entities: commodity futures customers.

Estimated Number of Respondents: 15.

Estimated Average Burden Hours per Respondent: 1.5.

Estimated Total Annual Burden Hours: 23.

Frequency of Collection: As applicable.

There are no capital costs or operating and maintenance costs associated with this collection.

(Authority: 44 U.S.C. 3501 *et seq.*)

Dated: July 12, 2024.

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

[Permit No. SWG-2019-00067 and Section 408 Request ID No. REIN-19-111]

Notice of Final Federal Agency Action on the Authorization for the Port of Corpus Christi Authority Channel Deepening Project

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of limitation on claims for judicial review of actions by the U.S. Army Corps of Engineers (USACE).

SUMMARY: USACE announces final agency action on the USACE authorization for the proposed deepening of the Port of Corpus Christi Authority Channel Deepening Project (CDP) located in and along the existing Corpus Christi Ship Channel. USACE has issued a permit authorizing the construction and maintenance of the CDP Project under sections 10 and 14 of the Rivers and Harbors Act of 1899 (RHA), section 404 of the Clean Water Act (CWA), and section 103 of the Marine Protection, Research and Sanctuaries Act (MPRSA). The CDP Project is a "covered project" under

Title 41 of the Fixing America's Surface Transportation Act.

DATES: A claim seeking judicial review of the USACE authorization of construction of the CDP Project will be barred unless the claim is filed not later than two years after this notice's publication date. If the Federal law that allows for judicial review of the USACE authorization specifies a shorter time period for filing such a claim, then that shorter time period will apply.

FOR FURTHER INFORMATION CONTACT: Jayson M Hudson, Regulatory Project Manager, Regulatory Division, USACE, Galveston District, 2000 Fort Point Road, Galveston, Texas 77550, (409)-766-3108, or SWG201900067@usace.army.mil.

SUPPLEMENTARY INFORMATION: Notice is hereby given that USACE has taken final agency action on its authorization for the proposed CDP Project by issuing a permit authorizing construction of the Project under section 10 and 14 of the RHA, section 404 of the CWA, and section 103 of the MPRSA.

The CDP project proposes to deepen the Corpus Christi Ship Channel (CCSC) from the Gulf to station 110+00 near Harbor Island in Nueces County, Texas, including the approximate 10 mile-extension to the Entrance Channel necessary to reach sufficiently deep waters. The CDP consists of deepening the CCSC from the authorized -54 feet MLLW to approximately -75 feet MLLW, with 2 feet of advanced maintenance and 2 feet of allowable overdredge, from Station 110+00 into the Gulf to Station -72+50 (3.5 miles) and deepening from the authorized -56 feet MLLW to approximately -77 feet MLLW, with 2 feet of advanced maintenance and 2 feet of allowable overdredge, from Station -72+50 to Station 620+00 in the Gulf (10.4 mile). As a result of one-way transit assumed for VLCCs, the planned widths for the -54-foot currently authorized project are nominally sufficient. Therefore, no widening other than the minor incidental widening to keep these bottom widths and existing channel slopes at the proposed deeper depths would occur. Deepening would take place largely within the footprint of the currently authorized -54-foot channel.

Dredging 46.3 million cubic yards would be required with inshore and Gulf placement of the material. Placement would occur in a mix of placement areas (PAs), Beneficial Use (BU) sites, and/or the New Work Ocean Dredged Material Disposal Sites (ODMDS). Placement of new work dredged material would occur at the following BU and PA sites: (1) SS1:

Restoring eroded shorelines; (2) SS2: Restore eroded shoreline along Port Aransas Nature Preserve/Charlie's Pasture; (3) PA4: Reestablish eroded shoreline and land loss in front of PA4 (SS1 Extension), and upland placement within PA4; (4) HI-E: Bluff and shoreline restoration with site fill' (5) PA6: Raise levee 5-foot and fill with new work material; (6) SJI: Beach restoration San José Island; (7) B1-B9: Nearshore berms offshore of San José Island and Mustang Island; (8) MI: Beach nourishment for Gulf side of Mustang Island; (9) ODMDS: Place within New Work ODMDS.

The USACE's decision to issue a permit, and the laws under which the action was taken, are described in the Final Environmental Impact Statement for the Proposed Corpus Christi Ship Channel Deepening Project (FEIS) published on March 22, 2024. The FEIS, ROD, permit, and other documents can be viewed and downloaded from the USACE website at <https://www.swg.usace.army.mil/Missions/Regulatory/Special-Projects-Environmental-Impact-Statements/>. By this notice, USACE is advising the public of final agency action subject to 42 U.S.C. 4370m-6(a)(1)(A).

This notice applies to all Federal agency decisions that are final as of the issuance date of this notice and all laws under which such actions were taken, including but not limited to:
