Target Member/Volunteer Level: 74,000

Key Milestones:

- FY 2012 application deadline – January 18, 2012
- FY 2012 awards – April through May 2012
- FY 2013 NOFO release – Summer 2012
- Grantee Meeting – September or October 2012

Funding Priorities:

AmeriCorps State and National seeks to fund programs in the following six focus areas that use an evidence-based approach to creating community impact and solving community problems, as envisioned by the Serve America Act.

- Disaster Services,
- Education,
- Environmental Stewardship,
- Healthy Futures,
- Opportunity, and
- Veterans and Military Families

The Serve America Act requires CNCS to select at least two of five statutorily defined focus areas in making competitive AmeriCorps State and National grants. For the 2012 AmeriCorps State and National competition, CNCS especially seeks to increase its investment in programs that serve veterans and military families or that engage veterans in service. In addition, CNCS seeks to focus its investment in the education area on national service programs that improve academic outcomes for children and youth in the lowest performing schools. In addition, AmeriCorps State and National added disaster services as a top tier funding priority.

CNCS will continue to place a high priority on programs that will offer participants a powerful and defining service experience.

National Performance Measures: Programs opting into year three of the National Performance Measures Pilot will be a priority for funding.

New Programs: AmeriCorps State and National has a goal of 15 percent of funds to support new programs.

Encore Programs: AmeriCorps State and National has a goal of 10 percent of funds supporting encore programs.
Accountability: AmeriCorps State and National will continue to place a high priority on accountability and will devote significant effort and resources to oversight and monitoring to assure compliance with all applicable rules and regulations. Special efforts will be made to help partners and grantees implement performance measurement and to comply with all administrative and financial reporting requirements.

Performance Measure Adoption and Implementation: AmeriCorps State and National has already adopted all of the agency’s 16 priority measures and continues to use the measures adopted as part of its performance measure pilot initiative, started in FY 2010. The program will not adopt any additional performance measures. FY 2012 represents the final year of the Performance Measure Pilot.
National Civilian Community Corps FY 2012 Annual Plan

FY Appropriation: $31,882,000

Target Member/Volunteer Level: 999

Key Milestones: Campus Start Dates

- Denver and Sacramento – October 2011
- Vicksburg, Vinton, and Perry Point – February 2012

Funding Priorities:

The Kennedy Serve America Act authorizes the AmeriCorps National Civilian Community Corps (NCCC) to operate a national service program and other service programs that provide young people with leadership and team-building opportunities to meet national and community needs in the areas of: natural and other disasters, infrastructure improvement, environmental stewardship and conservation, energy conservation, and urban and rural development.

In order to successfully carry out the legislative mandates of the program while increasing program effectiveness and efficiency, the NCCC has outlined key objectives and targets it will strive to meet in 2012 and beyond. These objectives and targets reference the impact of our service, the opportunities and training provided to our members, and overall program operations.

NCCC Service Projects and Special Initiatives:

In 2012, NCCC project outreach and implementation will reflect a focus on the new service areas as outlined in the Serve America Act to include: natural and other disasters, infrastructure improvement, environmental stewardship and conservation, energy conservation, and urban and rural development.

To further build upon programmatic strengths such as our residential design and intensive member training program (which prepares our members to deploy swiftly when disaster strikes), NCCC will continue in its role as the agency’s lead responders in times of disasters as well as expand project development into the areas of disaster preparation, mitigation and recovery.

CNCS participates in the American Customer Satisfaction Index to help enhance management practices and internal operations, specifically in relation to grantee customer satisfaction. Overall satisfaction is at a very high score of 88, down two points from 2009. This decline is not statistically significant.
NCCC Participants:
The Serve America Act mandates that NCCC engage participants from economically, geographically, and ethnically diverse backgrounds. Additionally, NCCC is directed to conduct outreach to increase participation of disadvantaged youth to a target enrollment of 50% by the year 2012. As of the beginning of the Winter 2012 class, we were anticipating 41%. Although the NCCC performs a significant amount of service that directly benefits youth from disadvantaged circumstances (including mentoring and tutoring) the intent of this directive is to engage young Americans from disadvantaged circumstances as NCCC members. In order to meet this measure, NCCC will continue to implement measures as outlined in the NCCC Annual Recruitment plan to include:

- Expand NCCC recruitment efforts by conducting outreach to organizations and institutions that support youth from disadvantaged circumstances;
- Collaborate with state and local Corps programs to promote 2nd year of service opportunities with NCCC among their membership;
- Promote AmeriCorps Week as an opportunity to introduce school-aged children to service and volunteering.

Performance Measure Adoption and Implementation:

AmeriCorps NCCC will contribute to seven of the 16 agency-wide priority performance measures. The measures we support align with our statutorily defined issue areas of: natural and other disaster, environmental stewardship and conservation, energy conservation, infrastructure improvement, and urban and rural development.

NCCC has tested and accepted programmatic performance measures during 2011, and has fully integrated them into the 2012 annual plan. NCCC also has developed measures based on an OMB mandate to have one quality outcome measure. NCCC has developed both project measures and member measures.
Senior Corps: RSVP FY 2012 Annual Plan

FY Appropriation: $50,203,925

Target Member/Volunteer Level: 296,380

Key Milestones:

- FY 2012 grants will be awarded non-competitively during quarters 3 and 4.

Currently, there are 61 relinquished grants. Eligible applicants must be located in or adjacent to geographic areas that no longer receive RSVP services due to the relinquishment of grants. Additionally, a portion of the relinquished funds will be used to compete grant augmentations to existing RSVP grantees to incorporate new veterans and military families programming. At this time, the funding to support the FY 2012 competition is approximately $3.1 million.
- RSVP FY 2013 Re-Competition: The Notice of Funding Opportunity will open in August 2012. The competition will result in an estimated 250 RSVP grant awards, with estimated total funding of $26.6 million. The first grant awards will be made in March 2013, using FY 2013 funds.

Funding Priorities:

RSVP grantees must focus 30% of the grant activities, defined as number of unduplicated volunteers, in a primary measure that leads to an outcome in Focus Areas of Education, Healthy Futures (independent living), or Economic Opportunity. Not more than 25% of activities can be outside of the Strategic Plan and focused on community identified priorities. The remainder of activity must be in support of Goal 1 or Goal 3 of the agency-wide measures, and will require outputs, but not outcomes. All grantees will report on number of veterans served and serving annually. The diversity of focus areas and performance measures reflects the statutory flexibility of RSVP programming.

Social Innovation Fund FY 2012 Annual Plan

FY 2012 Appropriation: $44.8 million

Target Member/Volunteer Level: Not Applicable

Key Milestones:

- Deadline for applications: March 27, 2012
- Announcement of new grant awards: August 2012

Funding Priorities:

The top priority for SIF funding is sustaining SIF programs already underway, whose continued funding is essential to the SIF realizing its promise. This includes both the subgrant programs of grantees to which we have already made multi-year grant commitments and also the initiatives undertaken by CNCS that leverage the grantees’ activities such as knowledge capture and expansion of the evidence base.

The second priority is making grants to new intermediaries. For FY 2012, the SIF envisions awarding $10-15 million to between three and six new intermediaries. As in previous years, the Social Innovation Fund will accept applications that address any of three issue areas: economic opportunity, youth development, and healthy futures. For FY 2012, however, priority consideration will be given to proposals that (a) are likely to generate significant, measureable improvements in the economic well-being of individuals and families served; and (b) focus their work in low-income communities that are “significantly philanthropically underserved.”

SAA Reporting Requirements: Periodic reports to the authorizing committees

Performance Measure Adoption and Implementation:

The SIF is embracing four principal performance measures. The first, which is also an agency-wide measure relating to Goal 3, focuses on the contribution of grantees to expanding their evidence base. The other three are program-specific measures that track critical elements of the SIF’s expected value:

- Financial resources raised by grantees to leverage their federal grant;
- The number of additional beneficiaries served by SIF grantees as a result of program expansion undertaken through the SIF; and
- The number of entities adopting behaviors or practices modeled by the SIF – an indication of the SIF’s influence on other funders, government agencies and nonprofit organizations.

In addition, selected SIF subgrantees will be contributing data to several other CNCS agency-wide measures if they fit the subgrantee’s model.

Activities in the grant portfolio may be part of a continuum of year round service and contribute to advancing overall programmatic impact and organizational capacity.

• MLK Day of Service: Grantees must competitively subgrant a portion of the federal funds to eligible organizations to plan and carry out direct service activities on the 2012 Martin Luther King, Jr. Holiday weekend. Activities in your portfolio may be part of a continuum of year round service and contribute to advancing overall programmatic impact and organizational capacity.

  • Engage local partner organizations that use volunteers in a collaborative process of planning and implementation for increasing the impact of volunteers in meeting critical needs
  • Provide relevant, competency-based volunteer roles and opportunities that attract and retain high caliber volunteers
  • Develop the internal operational systems and financial management systems that will provide organizational sustainability

Program Performance Measures:
