AmeriCorps Seniors SCP Performance Measure Requirements

Measured in Unduplicated Volunteers*

1. **Primary Focus Area:** The AmeriCorps Seniors Senior Companion Program Primary Focus Area is Healthy Futures, Aging in Place.
2. **Work Plans:** All unduplicated AmeriCorps Seniors volunteers or Volunteer Service Years (VSY), which is 1 VSY equals 1,044 hours of service, must be placed in the work plan. The maximum cost per unduplicated volunteer or VSY in all Performance Measures included in the Work Plan may not exceed the allowable cost per volunteer or VSY as stated below.
3. **National Performance Measures.** Every national performance measure output must be paired with a single outcome. For each Performance Measure, applicants must select one output and one of the associated outcomes. While beneficiaries may receive benefits associated with more than one available outcome, select only one outcome for each beneficiary served. "Other Community Priorities" work plans are not considered national performance measures.
4. **Other Community Priorities.** A work plan consisting of "Other Community Priorities" may be created by the grantee to address community activities not captured in national performance measures.
5. **Unduplicated Volunteers.** Count Volunteer Service Years (VSY), which is calculated by taking the total hours of services spent on each performance measure divided by 1044 hours. To complete the Performance Measures module, stipended programs must enter volunteer service years into the number of unduplicated volunteer section of the work plans.
 - i. Example: \$65,000 of federal funding has a minimum of 10 VSYS equals 10,440 hours of service (10 multiplied by 1,044).
6. **Maximum Cost per Unduplicated Volunteer in Outcome Assignments.** For every \$6,500 in base federal funding, at least one AmeriCorps Seniors VSY * must be placed in the work plan that result in national performance measure outcomes in the Education focus area.
 - i. Example: \$65,000 of federal funding divided by \$6,500 equals minimum of 10 VSYS placed into unduplicated volunteer outcome assignment.
7. **Rounding Unduplicated Volunteers in Outcome Assignments.** Common arithmetic rules should be used to determine how to round unduplicated volunteers in outcome-based work plans. Grantees should round to nearest whole number. For example, an AmeriCorps Seniors SCP grantee with \$98,000 in federal funding would require 15.07 unduplicated volunteers in work plans that result in national performance measure outcome. Since 15.07 is less than 15.5, this would be rounded down to 15 unduplicated volunteers in work plans that result in national performance measure outcomes. In contrast, a grantee with \$175,000 in federal funding (26.92 volunteers in outcome-based work plans) would round up and require 27 unduplicated volunteers in work plans that result in national performance measures outcomes.

Complete List of AmeriCorps Seniors SCP National Performance Measures

These selection rules specify allowable output/outcome pairings for National Performance Measures. Applicants must follow these selection rules when using National Performance Measures. Applicants may not select any National Performance Measures that may appear in eGrants if they are not present on this list. Please see the NOFO for additional information about application requirements.

Applicants who experience issues finding the appropriate measures in the Performance Measure Module of eGrants, should select the category title, “Outcome Work Plans”. For the Other Community Priorities measure, applicants should select the “Output Only Work Plans” category. More detailed instructions are included in Volume 2 of the [AmeriCorps Seniors Grant Application Instructions](#).

Other Community Priorities Notes:

- Community Priority Service Activities ensure that AmeriCorps Seniors programs can continue to engage in appropriate service activities that may not necessarily lead to national performance measures outcomes but do support the intent of the authorizing legislation.
- This work plan is designed to ensure that an activity supported by appropriated funds is represented in the grant application while minimizing data collection burden.
- These activities must be carried out by National Service Participants or by volunteers directly recruited and/or supported by National Service Participants.
- All individuals counted under these measures must be program beneficiaries, not National Service Participants.

SC1 (output)	Yes/ No met all Applicant-Determined Community Priority Service Activity Targets
Definition of Key Terms	<p>Community Priority Service Activity:</p> <ol style="list-style-type: none"> 1. Service activity conducted by AmeriCorps Seniors volunteers that may not necessarily lead to national performance measures but: <ol style="list-style-type: none"> a. Provides opportunities for senior service to meet unmet local and state needs; b. Empowers people 55 years of age or older to contribute to their communities through service, enhance the lives of those who serve and those whom they serve, and provide communities with valuable services; and c. Provides opportunities for people 55 years of age or older to share their knowledge, experiences, abilities, and skills for the betterment of their communities and themselves. 2. Community priority service activities shall not include any prohibited activities. <p>Applicant- Determined Community Priority Service Activity Targets: Target goals for Community Priority Service Activity that are identified by the program. Unlike national performance measure outputs, these targets are not reported to AmeriCorps. Instead, grantees will report yes/no that they have achieved the target goals for all their Community Priority Service Activities.</p>
